

EKSTERIOR

An architectural rendering of a proposed stadium design. The stadium is a long, low-profile structure with a curved, dark roof and a light-colored facade. It features a series of orange awnings over the seating areas. The stadium is situated on a raised platform with a red and white striped border. In the background, a large yellow sun is visible against a blue sky with white clouds and birds. The overall style is a clean, modern architectural visualization.

A wide-angle shot from the interior of the stadium, looking down the length of the seating bowl. Rows of purple seats are visible on the right side, and a large, curved, white, shell-like structure is visible in the background. The lighting is bright, with a strong sun flare on the left side of the frame.
