

# INHABITING ALTERED MARINE ECOLOGY: ARSITEKTUR ADAPTIF DALAM REDUKSI SAMPAH LAUT SERTA PEMBENTUKAN EKOLOGI KO-EKSISTEN PADA LINGKUNGAN ANTROPOGEN

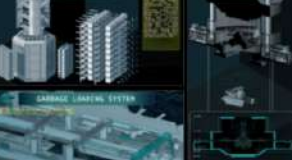

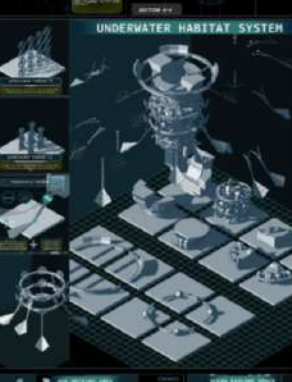

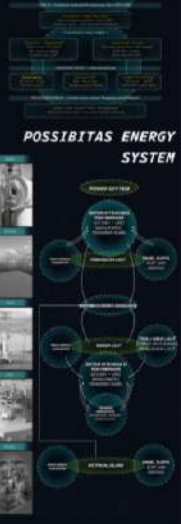

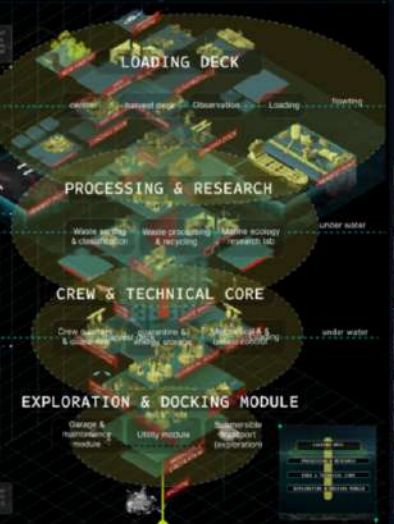

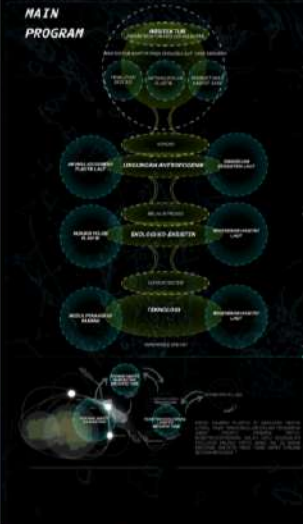

## TIDEMARK

RESEARCH ON MARINE TRANSPORTATION...  
The impact of marine transportation on the environment is a complex issue that involves various factors such as pollution, noise, and habitat destruction. This research aims to explore the effects of marine transportation on the marine ecosystem and to propose sustainable solutions to mitigate these impacts.

### IMPACT

Visualizing the environmental and social impacts of marine transportation through various charts and images.

JURNAL POSTER: PIRATA SYANDANA VOL.07 NO. 01
